# BRUNO

*The Electra-Ride II straight rail stairlift makes going up & down stairs a pleasure*

## Battery Powered Operation

### *Full Value*

Electra-Ride II is complete with a full list of standard features. Remote call/sends, 45 and 90 degree seat swivel at both the top and bottom of the stairs, adjustable swing-out arms and a 350 lb. rider capacity are all included. Similarly priced units either don't offer these items or they are shown only as extra cost options.

### *Flexible Seating*

With the Electra-Ride II, seating can be adjusted to meet a wide variety of needs. The seat height can be adjusted from 22 1/2 to 25 1/2 inches. The armrests independently swing out for easy wheelchair transfer.

### *Quiet, Powerful, Smooth*

The powerful rack and pinion drive system provides a smooth ride. The Electra-Ride II's battery powered system runs exceptionally quiet in your home.

### *Reliable Operation*

The Electra-Ride II uses two 12-volt batteries that are continuously charged by a state-of-the-art battery charger that plugs into any household outlet.

Bruno's leading edge technology assures you access up and down the stairway even if the electrical service in your home is interrupted.

The arms swing out of the way for easy wheelchair transfers. The arm release lever is conveniently located under the seat.

The Electra-Ride II's rack and pinion drive system provides a smooth ride, without hesitation when the unit stops and starts.

# BRUNO Electra-Ride™ II

# Safe and Affordable

Your lifestyle does not have to be limited by stairs.  
So enjoy the home you love, upstairs and down.

## Safety

You will be totally at ease on your Electra-Ride II. When traveling on the stairs, the Electra-Ride II will sense any obstacles and automatically stop. When you want to get off the unit upstairs the seat easily swivels so you face the hall. A retractable seat belt is standard. The Electra-Ride II meets all ANSI A-18.1 residential requirements, as well as all public building specifications with the optional commercial package.

## Affordable

*Electra Ride II* is simpler and less costly to install than other units because with battery-power there is no need to install additional electrical outlets.

The arms, seat and footrest flip up, creating plenty of space for guests to walk up the stairs.

The two wireless call/send controls make the installation simple and clean with no wires running along the wall.

Easy on and off thanks to the Electra-Ride II's unique design.

## Electra-Ride™ II SRE-1550 Specifications

### Exceptional Value

- ♦ Locking swivel seat, at the top and bottom of the stairway.
- ♦ Two remote, wireless call/send controls.
- ♦ Adjustable seat width.
- ♦ Footplate safety sensor and retractable seat belt.
